Suncare in Indonesia

Summary

Suncare in Indonesia industry profile provides top-line qualitative and quantitative summary information including: market size (value 2019-24, and forecast to 2029). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- The suncare market includes the retail sales of sun protection, after-sun, and self-tan products. The sun protection segment includes lotion, spray, gel, or other topical products that absorb or reflect some of the sun's ultraviolet (UV) radiation. After-sun segment covers all mass and premium moisturizing creams formulated for sunburned skin. Self-tan segment includes all mass and premium products that either enhance natural tanning (tanning aids) or allow the skin to tan without exposure to the sun. The market is valued according to retail selling price (RSP) and includes any applicable taxes.
- The Indonesian suncare market recorded revenues of \$277.7 million in 2024, representing a compound annual growth rate (CAGR) of 7.0% between 2019-24.
- Market consumption volume increased with a CAGR of 6.1% between 2019-24, reaching a total of 52.9 million units in 2024.
- The Indonesian suncare market revenue recorded strong growth during the review period 2019-24, driven by rising awareness of the harmful effects of UV radiation, including ageing and skin cancer, fueling the consumption volume of suncare products.
